

Health Insurance Marketplace 4 Tier Drug List

July 2026

This drug list (also known as a formulary) corresponds with the following plans:

Blue Choice Preferred Gold PPO Standard, Blue Choice Preferred Silver PPO Standard, Blue Choice Preferred Bronze PPO Standard

This drug list was last updated on 07/01/2026. The drug list is subject to change, and all previous versions of the drug list are no longer in effect. Please consider talking to your doctor about prescribing preferred prescription drugs, which may help reduce your out-of-pocket costs. This list may help guide you and your doctor in selecting an appropriate drug for you. Please visit **bcbsil.com** or **myprime.com** for the most up-to-date information.

To find a contracting pharmacy, please access the link below:

<https://www.myprime.com/en/find-pharmacy.html>

For specific benefit information, log in to your online member account at **bcbsil.com** or **myprime.com**, or call the customer service number on your member ID card.

Sleep Disorder Agents (Drugs for Sleep Problems).....	132
Index	134

Informational Section

This drug list (also known as a formulary) is a list of prescription drugs that are covered by your health insurance policy under the prescription drug benefit of the policy.

Members are encouraged to show this list to their physicians and pharmacists. Physicians are encouraged to prescribe drugs on this list, when right for the member. However, decisions regarding therapy and treatment are always between members and their physician.

Drug list updates – This list is regularly updated as generic drugs become available and changes take place in the pharmaceuticals market. For the most up-to-date information, visit **myprime.com** or **bcbsil.com** and log in to Blue Access for MembersSM or call the number on your ID card. Physicians can access the list from the provider portal at **bcbsil.com**.

How drugs are selected

Drugs on this list are selected based on the recommendations of a committee made up of physicians and pharmacists from throughout the country. The committee, which includes at least one representative from BCBSIL, reviews drugs regulated by the U.S. Food and Drug Administration (FDA).

Both drugs that are newly approved by the FDA as well as those that have been on the market for some time are considered. Drugs are selected based on safety, efficacy, cost and how they compare to other drugs currently on the list. Newly marketed drugs may not be covered until the committee has had an opportunity to evaluate based on these criteria.

Definitions

The following words and definitions will be used throughout the drug list:

"Allowed amount" is the maximum amount on which the health insurance issuer bases its payment for a covered health care service. This may be called "eligible expense", "payment allowance", or "negotiated rate". If your health care provider charges more than the allowed amount and is not part of the provider network, you may have to pay the difference.

"Brand name drug" is a drug that is marketed under a proprietary, trademark protected name. The brand name drug must be listed in all capital letters.

"Coinsurance" is a percentage of the cost of a covered health care service, which you are responsible to pay. The cost of the covered health care service is generally deemed to be the allowed amount, which may differ from the retail price that you would pay for the same service without using insurance. If your health product has a coinsurance, it typically does not apply until after you have met the deductible, unless the health insurance issuer has waived or lowered the deductible for the health care service in question.

"Copayment" is a fixed dollar amount that you pay for a covered health care service. If your health product has a copayment, it typically does not apply until after you have met the deductible, unless the health insurance issuer has waived or lowered the deductible for the health care service in question.

"Covered individual" is an individual enrolled in, subscribed to, or insured under a health product, whether directly or as a dependent or beneficiary.

"Deductible" is the amount you pay for covered health care services before your health product begins payment for all or part of the cost of the health care service under the terms of coverage. If your health product has a deductible, it may have either one deductible or separate deductibles for medical benefits and drug benefits. For some health care services, such as preventive services, the health insurance issuer might waive or lower the deductible to pay for costs of the health care service from the first dollar of coverage, but this tends not to happen for most other covered services.
"Drug Tier" is a group of drugs that corresponds to a specified cost sharing tier in the health product's drug coverage. The tier in which a drug is placed determines your portion of the cost for the drug.
"Exception request" is a request for coverage of i) a nonformulary drug, ii) a drug being removed from the formulary or iii) a quantity of a drug above a quantity limit. If you, your designee, or your attending or prescribing health care provider submits an exception request for coverage of a drug, the health insurance issuer must cover the drug when the drug is determined to be medically necessary to treat your condition.
"Exigent circumstances" are when you are suffering from a health condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a nonformulary drug.
"Formulary" is the complete list of drugs preferred for use and eligible for coverage under a health product, and includes all drugs covered under the outpatient or pharmacy drug benefit of the health product. Formulary is also known as a drug list or prescription drug list.
"Generic drug" is the same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic drug is listed in bold and italicized lowercase letters.
"Nonformulary drug" is a drug that is not listed on the health product's formulary as a covered drug, but may become eligible for coverage under an "exception request".
"Out-of-pocket cost" is copayments, coinsurance, and the applicable deductible, plus all costs for health care services that the health product does not cover.
"Prescribing provider" is a health care provider authorized to write a prescription to treat your health condition.
"Prescription" is an oral, written, or electronic order by a prescribing provider for you that contains the name of the drug, the quantity of the drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by you, the health condition or purpose for which the drug is being prescribed.
"Prescription drug" is a drug that is prescribed by your prescribing provider and requires a prescription under applicable law.
"Prior Authorization" is a health product's requirement that you or your prescribing provider obtain the health insurance issuer's authorization for a drug before the health product will cover the drug. The health insurance issuer must grant a prior authorization when it is determined medically necessary for you to obtain the drug.

How to use this list

How do I find a drug on this list?

Each covered prescription drug is listed alphabetically under the column titled “Drug Name” by its brand or generic name under the therapeutic category and class to which it belongs. This drug list uses the U.S. Pharmacopeia (USP) classification system.

To search for a drug name within this PDF document, use the **Control** and **F** keys on your keyboard, or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

Generic drugs are shown in lower-case **boldface** and *italicized* type.

Example: ***icatibant acetate subcutaneous soln pref syr 30 mg/3 ml***

- If the generic equivalent of a brand-name drug is both available and covered, the generic drug will be listed separately from the brand-name drug. If the brand-name drug is not covered, only the generic drug may be listed.
- When a generic drug is marketed with a brand name, the brand-name drug will be listed after the generic drug name in (parentheses) and in all CAPITAL letters. The generic drug will be listed in regular typeface with the first letter of each word Capitalized.

Example: Oxycodone W/ Acetaminophen Tab 5-325 mg (ENDOCET)

Brand-name drugs are shown in all CAPITAL letters followed by the generic drug name, formulation and strength in (parentheses) and lower-case **boldface** and *italicized* type.

Example: MAVYRET (***glecaprevir-pibrentasvir tab 100-40 mg***)

What are drug tiers?

Drugs are placed into drug tiers based on defined categories. The column titled “Drug tier” is the corresponding cost sharing tier to your health product’s drug coverage. The amount you pay for drugs in different tiers will vary. You can find information about what you pay by drug tier in your specific health product’s benefit information.

Drug Tier	Description
1	Generic
2	Preferred Brand
3	Non-Preferred Brand
4	Specialty, Brands, some Generics

Some brands may be placed in generic tiers and some generics may be placed in brand tiers. Specialty drugs are marked with an "SP" in the “Coverage Requirements and Limits” column. Please refer to the Specialty Section for more information. Note: Covered substance use disorder drugs (those FDA- approved for treatment of opioid drug abuse, alcohol abuse and to quit tobacco use) may be in the lowest tiers. Substance use disorder brand drugs may be in the lowest brand tier and generic drugs in the lowest generic tier, based on your benefit plan. These drugs are those with such active ingredients as buprenorphine-naloxone, nalmefene, naltrexone, lofexidine, naloxone, disulfiram, acamprosate, bupropion (smoking deterrent), varenicline and nicotine replacement therapy. Please refer to the ACA Preventive (ACA) section for drugs marked with an "AC" in the Coverage Requirements and Limits column. More information about other prescription drugs with \$0 or reduced cost share can be found in the Coverage Considerations section.

Visit **myprime.com** or **bcbsil.com** and log in to Blue Access for Members. To verify your payment amount for a drug, check your benefits in your online member account or call the number on your ID card. For covered prescription drugs, members will pay at the pharmacy equal to or less than the cost sharing amount owed or retail price of a drug without prescription drug coverage.

Your pharmacy benefit includes coverage for many prescription drugs, although some exclusions may apply. Generally, if a drug is not listed on the drug list it is not covered. For example, drugs indicated for cosmetic purposes, e.g., Propecia, for hair growth, may not be covered. Drugs that have not received FDA approval may not be covered. Prescription products that have over-the-counter (OTC) equivalents may not be covered. Drugs that are not FDA-approved for self-administration may be available through your medical benefit. Check your plan materials for details. Some prescription drugs covered under your pharmacy benefit(s) may need to be filled at a pharmacy that carries your drug.

Drugs used to treat multiple conditions

Some drugs in the same dosage form may be used to treat more than one medical condition. In these instances, each drug is classified according to its first FDA-approved use. Please check the index if you do not find your particular drug in the class/condition section that corresponds to your use.

Please note: Drugs that need a health care provider to administer them and are often given to you in a hospital, doctor's office or other health care setting may be covered under your medical benefit. Some types of these drugs are contraceptive implants and chemo infusions. If you are taking or are prescribed a drug that is not on this drug list, call the number on your ID card to see if the drug may be covered.

Generic drugs

Using generic drugs, when right for you, can help you save on your out-of-pocket drug costs. Generic drugs must be approved by the FDA just as brand drugs are, and must meet the same standards.

There are two types of generic drugs:

- A **generic equivalent** is made with the same active ingredient(s) at the same dosage as the reference drug.
- A **generic alternative** is a drug typically used to treat the same condition, but the active ingredient(s) differs from the brand drug.

According to the FDA, compared to its brand counterpart, an FDA-approved generic drug:

- Is chemically the same
- Works just as well in the body
- Is as safe and effective
- Meets the same standards set by the FDA

The main difference between the reference brand drug and the generic equivalent is that the generic often costs much less.

Preferred brand drugs may be excluded or moved to a non-preferred brand tier after a generic equivalent becomes available. You may be responsible for the applicable member cost share payment amount (copay or coinsurance) *plus* the difference in cost between the brand and generic equivalent if you or your doctor requests the reference brand rather than the generic. Generic drugs usually have the lowest member payment amount.

Consider talking to your doctor about generic drugs

If your doctor writes a prescription for a brand drug that does not have a generic equivalent, consider asking if an appropriate generic alternative is available.

You can also let your pharmacist know that you would like a generic equivalent for a brand drug, whenever one is available. Your pharmacist can usually substitute a generic equivalent for its brand counterpart without a new prescription from your doctor.

Only your doctor can determine whether a generic alternative is right for you and must prescribe the drug.

Coverage considerations

Most prescription drug benefit plans provide coverage for up to a 30-day supply of prescription drug, with some exceptions. Your plan may also provide coverage for up to a 90-day supply of maintenance medications. Maintenance medications are those drugs you may take on an ongoing basis for conditions such as high blood pressure, diabetes or high cholesterol. Also, some drugs may only be covered for members within a certain age range due to the drug being used for cosmetic purposes or for safety concerns. Drug coverage may be limited to recommendations based on FDA-approved labeling and recognized evidence-based or clinical practice guidelines.

Over-the-counter exclusions: Your benefit plan does not provide coverage for prescription drugs that have an over-the-counter version. You should refer to your benefit plan materials for details about your particular benefits.

Compounded medications: Your benefit plan does not provide coverage for compounded medications. Please see your plan materials or call the number on your ID card to determine whether compounded medications are covered and/or verify your payment amount.

Repackaged medications: Repackaged versions of medications already available on the market are not covered.

Prior Authorization (PA): Your benefit plan may require prior authorization for certain drugs. This means that your doctor will need to submit a prior authorization request for coverage of these prescriptions, and the request will need to be approved, before the drug may be covered under your plan. Your doctor can find forms on our provider website at bcbsil.com/provider or call the number on your ID card to start the process. For the drugs listed in this document, if a prior authorization is commonly required, it will generally be noted next to the drug with a "PA" under the Coverage Requirements and Limits column. Members with a Type 2 diabetes diagnosis in their medical history may not require a prior authorization for a continuous glucose monitor (CGM), even if noted. Some plans may have prior authorization on additional drugs beyond those noted in this document.

A prior authorization approval will be valid for the lesser of six months, the length of treatment determined by the covered individual's prescribing provider, or the renewal of the plan. (This does not apply to benzodiazepines, Schedule II narcotic drugs and maintenance medications to treat a chronic or long-term condition). For maintenance medications to treat a chronic or long-term condition, a prior authorization approval will be valid for the lesser of 12 months or the length of treatment determined by the covered individual's prescribing provider.

If BCBSIL fails to respond to a prior authorization request using the uniform electronic prior authorization form within 72 hours of receiving a non-urgent request and 24 hours of receiving an urgent request, the request is deemed granted.

Dispensing Limits (DL)/Quantity Limits (QL): Drug Dispensing limits help encourage prescription drug use as intended by the FDA. Dispensing limits are placed on drugs in certain drug categories. For the drugs listed in this document, if a dispensing limit applies, it will generally be noted next to the drug with a "QL" under the Coverage Requirements and Limits column. Limits may include: quantity of covered medication per prescription or quantity of covered medication in a given time period. If your doctor prescribes a greater quantity of medication than what the dispensing limit allows, you can still get the drug. However, you may be responsible for the full cost of the prescription beyond what your coverage allows. *Some plans may have a dispensing limit on additional drugs beyond those noted in this document. For a list of prescription drugs and their dispensing limits, visit myprime.com or bcbsil.com.

*Please note: For certain controlled substance medications, some state laws may not allow coverage by a health benefit plan of such drugs if dispensed in a quantity beyond what the dispensing limit allows. You will be responsible for the full cost of the prescription with no benefits applied if the dispensed quantity exceeds the dispensing limit.

Limited Distribution (LD): Medicines marked as "LD" in the Coverage Requirements and Limits column may only be available at select pharmacies. You may need to fill your prescription at a pharmacy that carries your medication.

Cost Waived (CW): Based on your benefit plan, medicines marked with a "CW" in the Coverage Requirements and Limits column are mandated in state of Illinois to have \$0 member cost-sharing (copay or coinsurance amount). Coverage may vary based on benefit plan. To verify your payment amount for a drug, visit myprime.com or bcbsil.com and log in to your online member account or call the number on your ID card.

Illinois Code Compliance (IC): Prescription drugs marked with "IC" in the Coverage Requirements and Limits column are regulated by the Illinois Insurance Code. These products may have limited or \$0 member cost-sharing (copay or coinsurance amount), when meeting the conditions as outlined under the regulation and filled at a participating pharmacy. Coverage may vary based on benefit plan.

Oral Cancer Medications (OC): These prescribed cancer medications that are taken orally have the same guidelines as injectable or physician-administered cancer medications. Medications marked with "OC" in the Coverage Requirements and Limits column have a maximum limit on the member cost-sharing (copay/coinsurance) amount. See your benefit plan for more info.

ACA Preventive (ACA): Medicines marked as "AC" in the Coverage Requirements and Limits column are under the Affordable Care Act coverage of preventive services. These products have limited or \$0 member cost-sharing (copay or co-insurance), when meeting the conditions as outlined under the regulation. To see what contraceptive products may be covered, visit <https://www.bcbsil.com/il/documents/rx-drugs/member-contraceptive-list-il.pdf>

You, or your prescribing health care provider, can submit a copay waiver or coverage exception request for ACA preventive medicines with or without the "AC" indicator and medicines on the No-Cost Preventive Drug List by calling the number on your ID card to ask for a review. Copay waiver and coverage exception forms for your provider to fill out are available at bcbsil.com/provider or myprime.com. If you meet the conditions as outlined under the ACA regulations, these products may have \$0 member cost-sharing (copay or coinsurance) when obtained from a participating pharmacy. BCBSIL will let you, and your prescriber, know the coverage decision after they receive your request. If the request is denied, BCBSIL will let you and your prescriber know why it was denied and offer you a covered alternative drug (if applicable).

Illinois mandated \$0 cost share products: Based on your benefit plan, abortifacient medication, hormonal therapy for gender dysphoria, HIV preexposure prophylaxis and/or post-exposure prophylaxis, and/or opioid antagonist drug(s) have \$0 member cost-sharing (copay or coinsurance) when obtained from a participating pharmacy. Members with a High Deductible Health Plan (HDHP), designed for use with a Health Savings Account (HSA), may need to first meet their deductible before \$0 member cost-sharing begins. To verify your payment amount for a drug, visit MyPrime.com or bcbsil.com and log in to your online member account, or call the number on your ID card to request payment amount or information on a copay waiver exception.

Remember, medication decisions are between you and your doctor. Only you and your doctor can determine which prescription drug is right for you. Discuss any questions or concerns you have about drugs you are taking or are prescribed with your doctor. BCBSIL does not provide health care services and, therefore, cannot guarantee any results or outcomes.

Pharmacies

Participating retail pharmacies

You can fill prescriptions for up to a 30-day supply, with some exceptions, at any participating (network) pharmacy. Your health product and plan benefits may provide coverage for up to a 90-day supply of maintenance medications at select retail pharmacies. To find a network retail pharmacy, visit <https://www.myprime.com/en/find-pharmacy.html>.

Home delivery

Your health product and plan benefits may provide coverage for up to a 90-day supply of maintenance medications through home delivery. With home delivery, you can enjoy the ease of having your 90-day supply maintenance drugs delivered anywhere in the U.S. To verify your plan benefits and find a network home delivery pharmacy service, visit MyPrime.com or bcbsil.com and log in to your online member account.

Specialty drugs

Specialty drugs are used to treat complex, chronic or rare conditions. They are only available at select pharmacies due to their limited or exclusive access. They have special handling and storage needs. Patients need to follow a clinical care plan that often changes dosing, monitors clinical results and/or offers counseling, education or individualized disease and drug care therapy. Specialty drugs may be oral, topical or injectable medications that can either be self-administered or administered by a health care provider. Drugs given by a provider are not covered under the pharmacy benefit. For a current list of specialty drugs, visit **myprime.com** or **bcbsil.com** and log in to Blue Access for Members.

Note that some drug classes may be excluded by some plans and may not be covered under your pharmacy benefit. If you have questions about your coverage for specialty drugs or your prescription drug benefit, call the number on your ID card.

Blue Cross and Blue Shield of Illinois, is a Division of Health Care Service Corporation, a Mutual Legal Reserve Company, an Independent Licensee of the Blue Cross Blue Shield Association. BCBSIL contracts with a separate company, Prime Therapeutics LLC, to provide pharmacy solutions. BCBSIL, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime Therapeutics.

Abbreviation key

aer	aerosol	nebu	nebulizer

inhal	inhaler	suppos	suppositories
inj	injection	susp	suspension
liqd	liquid	tab	tablets
mg	milligram	td	transdermal
ml	milliliter	w/	with

Exception Process

You, your prescribing health care provider, or your authorized representative, can ask for a Drug List exception if your drug is not on (or is being removed from) the Drug List. To request this exception, you, your prescriber, or your authorized representative, can call the number on your ID card to ask for a review. BCBSIL will let you, your prescriber (or authorized representative) know the coverage decision within 72 hours after they receive your request. If the coverage request is approved, BCBSIL will provide coverage for the duration of the prescription, including refills for up to 12 months. If the coverage request is denied, BCBSIL will let you and your prescriber (or authorized representative) know why it was denied and offer you a covered alternative drug (if applicable).

If you have a health condition that may jeopardize your life, health or keep you from regaining function, or your current drug therapy uses a non-covered drug, you, your prescriber, or your authorized representative, may be able to ask for an expedited review process. BCBSIL will let you, your prescriber (or authorized representative) know the coverage decision within 24 hours after they receive your request for an expedited review. If the coverage request is approved, BCBSIL will provide coverage for the duration of the prescription, including refills for up to 12 months. If the coverage request is denied, BCBSIL will let you and your prescriber (or authorized representative) know why it was denied and offer you a covered alternative drug (if applicable). Call the number on your ID card if you have any questions.

You, your prescribing health care provider, or your authorized representative, can ask for a tier exception to continue coverage on the existing tier if your drug is placed on a less preferred or higher cost-sharing tier during the plan year. To request this tier exception, you, your prescriber, or your authorized representative, can call the number on your ID card to ask for a review. BCBSIL will let you, your prescriber, or authorized representative (as applicable) know the coverage decision within 72 hours after they receive your request. If the tier exception request is approved, BCBSIL will provide coverage at the existing tier for 12 months following the date of approval or until renewal of the plan.

For more information about requesting a coverage exception and the appeal process, visit <https://www.bcbsil.com/member/transparency-in-coverage>

If you or your prescriber are asking for a copay waiver or coverage exception request for an ACA preventive product, please see the ACA preventive section.

2026 Health Insurance Marketplace 4 Tier Updates

as of July 2026

This drug list is updated every month. The types of changes that July occur are: drug coverage additions, drug coverage exclusions, drugs moving to higher or lower tiers and new utilization review restrictions, such as prior authorization and dispensing limits. BCBSIL will provide at least a 60-day prior notification to an affected covered individual for the following changes: drugs moving to a higher tier, drug coverage exclusions and stricter utilization review requirements. Changes for this month are listed in the chart below. The drug name is in the left column, the middle column lists the type of change, and the right column lists the new tier or coverage restrictions.

TRADE NAME (generic name) or generic name	Type of Change	New Tier and/or Coverage Restriction
ADRENAMAX (*amino acids cap***)	Tier Change	Tier 3
albuterol sulfate inhal aero 108 mcg/act (90mcg base equiv)	UM Change	QL Added
ANUCORT-HC (hydrocortisone acetate suppos 25 mg)	Tier Change	Tier 3
ANUSOL-HC (hydrocortisone acetate suppos 25 mg)	Tier Change	Tier 3
ARANELLE (norethindrone-eth estradiol tab 0.5-35/1-35/0.5-35 mg-mcg)	Tier Change	Tier 3
BACITRACIN/POLYMYXIN B (bacitracin-polymyxin b ophth oint)	Tier Change	Tier 3
bimatoprost ophth soln 0.01%	UM Change	QL Added
CAREPOINT PRECISION POLY HUB NEEDLE/25GX5/8" (needle (disp) 25 x 5/8")	Addition	Tier 2
CAREPOINT PRECISION SYRINGE/LUER LOCK/30ML (syringe (disposable) 30 ml)	Addition	Tier 2
CAREPOINT PRECISION SYRINGE/LUER LOCK/3ML (syringe (disposable) 3 ml)	Addition	Tier 2
clindamycin phosphate swab 1%	Addition	Tier 1
CLINPRO 5000 (sodium fluoride paste 1.1%)	Tier Change	Tier 2
dapagliflozin free base-metformin hcl tab er 24hr 10-1000 mg	Addition	Tier 1
dapagliflozin free base-metformin hcl tab er 24hr 10-500 mg	Addition	Tier 1
dapagliflozin free base-metformin hcl tab er 24hr 5-1000 mg	Addition	Tier 1
dapagliflozin free base-metformin hcl tab er 24hr 5-500 mg	Addition	Tier 1
dapagliflozin tab 10 mg	UM Change	QL Added
dapagliflozin tab 5 mg	UM Change	QL Added
DENTA 5000 PLUS (sodium fluoride cream 1.1%)	Tier Change	Tier 2
DENTAGEL (sodium fluoride gel 1.1% (0.5% f))	Tier Change	Tier 2
DEXCOM G6 RECEIVER (*continuous glucose system receiver***)	UM Change	PA Added
DEXCOM G6 SENSOR (*continuous glucose system sensor***)	UM Change	PA Added
DEXCOM G7 15 DAY SENSOR (*continuous glucose system sensor***)	UM Change	PA Added
DEXCOM G7 RECEIVER (*continuous glucose system receiver***)	UM Change	PA Added
DEXCOM G7 SENSOR (*continuous glucose system sensor***)	UM Change	PA Added
DISKETTS (methadone hcl tab for oral susp 40 mg)	Removal	
DOXEPIN HCL (doxepin hcl conc 10 mg/ml)	Tier Change	Tier 3
DROXIA (hydroxyurea cap 200 mg)	UM Change	PA Added
DROXIA (hydroxyurea cap 300 mg)	UM Change	PA Added
DROXIA (hydroxyurea cap 400 mg)	UM Change	PA Added
EASYGEL (stannous fluoride gel 0.4%)	Tier Change	Tier 2

Continued

Blue Cross and Blue Shield of Illinois, a Division of Health Care Service Corporation, a Mutual Legal Reserve Company, an Independent Licensee of the Blue Cross and Blue Shield Association. Prime Therapeutics LLC is a separate company BCBSIL contracts with to provide pharmacy solutions. BCBSIL, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime Therapeutics.

TRADE NAME (generic name) or generic name	Type of Change	New Tier and/or Coverage Restriction
ENSURE MAX PROTEIN WITH CAFFEINE (<i>*nutritional supplement liquid**</i>)	Addition	Tier 3
ENSURE ORIGINAL (<i>*nutritional supplement liquid**</i>)	Addition	Tier 3
everolimus tab 10 mg	Addition	Tier 4
everolimus tab 2.5 mg	Addition	Tier 4
everolimus tab 5 mg	Addition	Tier 4
everolimus tab 7.5 mg	Addition	Tier 4
FLUORIDE (<i>sodium fluoride chew tab 0.25 mg f (from 0.55 mg naf)</i>)	Tier Change	Tier 2
FLUORIDE (<i>sodium fluoride chew tab 0.5 mg f (from 1.1 mg naf)</i>)	Tier Change	Tier 2
FLUORIDE (<i>sodium fluoride chew tab 1 mg f (from 2.2 mg naf)</i>)	Tier Change	Tier 2
FLUORIDEX DAILY DEFENSE (<i>sodium fluoride paste 1.1%</i>)	Tier Change	Tier 2
FLUORIDEX DAILY RENEWAL (<i>stannous fluoride conc 0.63%</i>)	Tier Change	Tier 2
FLUORIDEX ENHANCED WHITENING (<i>sodium fluoride paste 1.1%</i>)	Tier Change	Tier 2
FLUORIMAX 5000 (<i>sodium fluoride paste 1.1%</i>)	Tier Change	Tier 2
FRAICHE 5000 DENTAL (<i>sodium fluoride gel 1.1% (0.5% f)</i>)	Tier Change	Tier 2
FUROSEMIDE (<i>furosemide oral soln 10 mg/ml</i>)	Tier Change	Tier 3
FYCOMPA (<i>perampanel susp 0.5 mg/ml</i>)	Removal	
gabapentin cap 300 mg	Addition	Tier 1
gabapentin cap 400 mg	Addition	Tier 1
GLEOSTINE (<i>lomustine cap 10 mg</i>)	Removal	
GLEOSTINE (<i>lomustine cap 100 mg</i>)	Removal	
GLEOSTINE (<i>lomustine cap 40 mg</i>)	Removal	
HEMMOREX-HC (<i>hydrocortisone acetate suppos 25 mg</i>)	Tier Change	Tier 3
HYDROCORTISONE ACETATE (<i>hydrocortisone acetate suppos 25 mg</i>)	Addition	Tier 3
HYDROCORTISONE ACETATE (<i>hydrocortisone acetate suppos 25 mg</i>)	Tier Change	Tier 3
HYPERSAL (<i>sodium chloride soln nebu 7%</i>)	Addition	Tier 3
JUST RIGHT 5000 (<i>sodium fluoride paste 1.1%</i>)	Tier Change	Tier 2
KOMZIFTI (<i>ziftomenib cap 200 mg</i>)	Addition	Tier 4
K-PHOS (<i>potassium phosphate monobasic tab 500 mg</i>)	Addition	Tier 3
K-PHOS NEUTRAL (<i>pot phos monobasic w/sod phos di & monobas tab 155-852-130mg</i>)	Addition	Tier 3
LASIX ONYU (<i>furosemide subcutaneous cartridge kit 80 mg/2.67ml</i>)	Addition	Tier 4
MAVENCLAD (<i>cladribine tab therapy pack 10 mg (10 tabs)</i>)	Removal	
MAVENCLAD (<i>cladribine tab therapy pack 10 mg (4 tabs)</i>)	Removal	
MAVENCLAD (<i>cladribine tab therapy pack 10 mg (5 tabs)</i>)	Removal	
MAVENCLAD (<i>cladribine tab therapy pack 10 mg (6 tabs)</i>)	Removal	
MAVENCLAD (<i>cladribine tab therapy pack 10 mg (7 tabs)</i>)	Removal	
MAVENCLAD (<i>cladribine tab therapy pack 10 mg (8 tabs)</i>)	Removal	
MAVENCLAD (<i>cladribine tab therapy pack 10 mg (9 tabs)</i>)	Removal	
medroxyprogesterone acetate im susp 150 mg/ml	Addition	Tier 1
MMA/PA COOLER15 (<i>*nutritional supplement liquid**</i>)	Addition	Tier 3
NEBUSAL (<i>sodium chloride soln nebu 3%</i>)	Tier Change	Tier 3
NEOMYCIN/POLYMYXIN/BACITRACIN (<i>neomycin-bacitrac zn-polymyx 5 (3.5)mg-400unt-10000unt op oin</i>)	Tier Change	Tier 3
NEOMYCIN/POLYMYXIN/BACITRACIN/HYDROCORTISONE (<i>bacitracin-polymyxin-neomycin-hc ophth oint 1%</i>)	Tier Change	Tier 3
nintedanib esylate cap 100 mg (base equivalent)	UM Change	PA Added,QL Added

TRADE NAME (generic name) or generic name	Type of Change	New Tier and/or Coverage Restriction
nintedanib esylate cap 150 mg (base equivalent)	UM Change	PA Added,QL Added
nitroglycerin oint 2%	Addition	Tier 1
OTREXUP (methotrexate soln pf auto-injector 10 mg/0.4ml)	Removal	
OTREXUP (methotrexate soln pf auto-injector 12.5 mg/0.4ml)	Removal	
OTREXUP (methotrexate soln pf auto-injector 15 mg/0.4ml)	Removal	
OTREXUP (methotrexate soln pf auto-injector 17.5 mg/0.4ml)	Removal	
OTREXUP (methotrexate soln pf auto-injector 20 mg/0.4ml)	Removal	
OTREXUP (methotrexate soln pf auto-injector 22.5 mg/0.4ml)	Removal	
OTREXUP (methotrexate soln pf auto-injector 25 mg/0.4ml)	Removal	
OZEMPIC (semaglutide tab 1.5 mg)	Addition	Tier 2
OZEMPIC (semaglutide tab 4 mg)	Addition	Tier 2
OZEMPIC (semaglutide tab 9 mg)	Addition	Tier 2
PEDIASURE 1.0 CAL (*nutritional supplement liquid**)	Addition	Tier 3
PEDIASURE 1.0 CAL/FIBER (*nutritional supplement liquid**)	Addition	Tier 3
PEDIASURE 1.5 CAL (*nutritional supplement liquid**)	Addition	Tier 3
PEDIASURE 1.5 CAL/FIBER (*nutritional supplement liquid**)	Addition	Tier 3
PEDIASURE GROW & GAIN (*nutritional supplement liquid**)	Addition	Tier 3
PHENOBARBITAL (phenobarbital elixir 20 mg/5ml)	Tier Change	Tier 3
PHENOBARBITAL (phenobarbital tab 100 mg)	Tier Change	Tier 3
PHENOBARBITAL (phenobarbital tab 15 mg)	Tier Change	Tier 3
PHENOBARBITAL (phenobarbital tab 16.2 mg)	Tier Change	Tier 3
